

# NINE CIRCLES

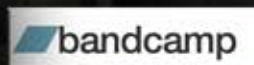

MOONS AWAY

Completely DIY and self produced; Northern New Jersey's Nine Circles makes a bold mark with their polished sound and dynamic stage show. Veterans of the New York Club scene, Nine Circles have been honing their craft and amazing audiences at such venues as The Bitter End, Arlene's Grocery, Crash Mansion, Maxwell's, The Whiskey Bar, Sullivan Hall, Don Hill's, and Kenney's Castaways.

Fresh off their first independent release, "Situations", Nine Circles are set to release a follow up EP, "Moons Away". The record demonstrates an evolution for the band, not just in terms of songwriting or performance, but in production value as well. After spending the past year obsessing over every detail of their newest effort, they have emerged a more mature and focused band. Ready to capitalize on the success of their first release, Nine Circles are busy promoting and performing their music, entertaining fans across the east coast.

Listen Here!!!

"Where do I begin with the band Nine Circles? I've been a fan for many years now of all the members, and it was an absolute honor to have them into the WDHA studios finally for my blog! I've done many shows with the band acting as the Hostess with the mostest, well I tried...and its been a fabulous journey watching the band, grow musically." - Lindsay Klien, 105.5 WDHA
